

Premium Tilt & Turn

Aluminium Tilt and Turn Windows

Stylish & Efficient
Tilt And Turn
Aluminum Windows

Our Premium Tilt and Turn windows provide an ideal solution for high-rise applications where internal glazing and ease of cleaning are essential. They are thermally efficient, secure and versatile. Suitable for all: Commercial, Retail, Residential, Public, Health Care and Educational applications. They feature contemporary flat faced profiles, all internal beaded for added security and ease of glazing on site.

Our Premium Tilt before Turn windows have a 'Polyamide' thermally broken profile and comply with Doc L of the Building Regulations for both new build and replacement and refurbishment projects. They can achieve U-values as low as 1.5W/M²K and a Window Energy Rating 'B' with double glazed sealed units. The glazing beads can be square or chamfered and there is a choice of a 58mm or 70mm deep frame to accommodate varying applications
