

# Continental Plus

Aluminium Bi-Folding Doors

The New *Slimline*  
*Continental Plus*  
Bi-folding Door

An evolution of our Continental bifold the Continental Plus has been designed with style and performance front of mind. It cleverly combines the intimacy of inside spaces with the freedom of outside living, without ever compromising on performance safety or security.

The Continental Plus is improved in several key areas:

Slimmer - With a 122mm meeting stile sight line.

More secure - With shoot bolts on traffic doors.

Warmer - With U-values of just 1.5 and 1.3.

Tougher - Max panel weights of 150kg.

## Key Features

- Utilises the natural strength of aluminium to create slim thermally broken profiles. Sight line of 122mm meeting stile.
- U-values as low as 1.3 W/M<sup>2</sup>K.
- PAS24 as standard for exceptional security.
- Uses low maintenance, hard wearing powder coated aluminium.
- Over 200 single or dual colours.
- Single or French door styles to match.
- Doors are bottom hung and run on double stainless steel tracks.
- An assortment of glazing options offered including laminated security and solar control glass.
- Options for dust free integrated blinds.
- All door styles have the option to open in or out.

## Security

- Lever handles use a 6 point locking system. This includes 2 heavy duty hook locks, 1 dead bolt, 1 latch and shoot bolts top & bottom.
- Intermediate panels use heavy duty shoot bolts top and bottom.
- Bogie wheels and top rail guide are used as an anti-jemmy feature to prevent panels being lifted off the tracks.
- On doors with outside access we use high security cylinders that are pick resistant, anti-drill and anti-bump.
- Upgrade to laminated glass for added security.
- The doors are internally glazed to offer greater security.

## Performance

## Sizing

Panel Widths		Door Heights
